# Xero - Your Solution for Parish Accounting

### The Challenge for Parishes

In 2012, the Presbyterian Church of Aotearoa New Zealand ("PCANZ") reviewed how accounting was being carried out in its parishes. Several things became clear:

- Parishes were processing their financial transactions and preparing reports (both interim
  and final financial for the year) using a variety of methods, not all of which were providing
  the accurate and timely accounting information needed;
- Many parishes had not yet caught up with the revised accounting standards to which (by law) they were now required to adhere in preparing financial reports both for their own internal reporting but, more importantly, filing with the Charities Commission;
- In addition, calculation and preparation of GST returns was not always being done correctly, leaving parishes open to potential issues with Inland Revenue Department.

### A workable, sustainable solution was needed.

PCANZ decided that NZ-developed Xero accounting software would provide just such a solution. Cloud-based, with the many advantages that incorporates, the software ticks many boxes:

- Easy to operate, even for non-accountants;
- Because of its automated bank feeds, the majority of data entry done previously by treasurers/administrators is no longer needed, saving time AND removing most of the areas where errors have traditionally been made;
- Can be accessed from any computer with an internet connection even from a mobile phone with access to data!
- Flexible and able to be customised to suit PCANZ-specific needs;
- Affordable a special discounted PCANZ subscription rate has been negotiated; this is paid
  monthly, so there's no big outlay to purchase the software. Once you've signed up, as long
  as you pay the monthly subscription, you'll always have access. And there're no extra fees
  for upgrades either!
- Automatic backup no need for parishes to put those processes in place for their accounting software;
- Offers literally hundreds of "plug-in" applications which integrate seamlessly with Xero, some of which offer highly applicable solutions to parishes, eg. Infoodle, which allows easy tracking of donations from parishioners, including generation of end of year donation certificates for tax rebate claim purposes;
- Integrates with several great Payroll solutions, to enable simplified preparation, payment and filing of stipends, salaries and wages, along with IRD reporting;
- Provides for comprehensive financial reports to be written which comply with the updated accounting standards for Not For Profit organisations;
- Allows for an unlimited number of users and unlimited free customer support, but the software is so easy to operate that on a typical day, less than 1% of Xero users worldwide access it!

Saving time and reducing margin for error – yes please!

### The Best Solutions Begin With A Great Team

PCANZ approached us, Laurenson Chartered Accountants ("Laurensons"), a well-established Wellington practice and one of the few in NZ offering collaboration with Xero at Platinum level, with a view to entering into a relationship whereby parishes could be supported by accounting professionals:

- 1. Firstly, in setting up the new accounting software, including importing data from other accounting systems where applicable;
- 2. Offering training where needed; and
- 3. Provide support for end of year financial reporting, at several levels, depending on the requirements of individual parishes:
  - Full compilation service and financial reporting, or
  - Review of financial records, to prepare them to be submitted for the parish's selected auditor.

We developed a standardised Chart of Accounts to be used by parishes, to work alongside the financial reports we also developed specifically to suit PCANZ' needs, with the goal of making reporting easy and stress-free for parish administrators, both for ongoing internal reporting during the year, and preparing end of year financial statements. However, because every parish operates slightly differently, the Chart of Accounts also has the flexibility to be added to or edited to suit the needs of individual parishes, without unduly disrupting the working of the report templates.

Additionally, PCANZ made the decision to subsidise a year-end review of accounts for parishes adopting Xero accounting, paying for up to 3 hours of our time each year to look at your year-end accounts, and correct any errors or anomalies before they're submitted to an external accountant or auditor.

And so the partnership between PCANZ and Laurensons began.

### **Frequently Asked Questions**

I've heard that some cloud-based software is not very secure – is my parish's data going to be safe?

Yes! While obviously we can't say what may or may not happen in the future, to date Xero software has NEVER been breached, and they have NEVER lost any customer data. The company continues to invest heavily in product development, protecting against unauthorised access and system failures.

Another bonus of cloud-based software is that if there should be an unforeseen disaster (your computer dies when your son knocks his beer over it, or your dog eats the file containing the whole year's financial reports) you'll be up and running again in no time. As soon as you have a replacement computer, you can just log in again – AND those reports won't be lost, but will be sitting there for you online.

# If my banking data is being fed automatically into Xero, does that mean that anyone with a Xero login can access our bank account and generate transactions?

No, absolutely not. There is no provision within Xero to operate your bank account for any user. All that happens is that bank transactions are downloaded (retrospectively) overnight each working day. These come into the software as historical records, i.e. they can't be changed in any way.

### I don't know much about operating accounting software – who will train me?

There are 3 ways in which you can access training:

- 1. Once your Xero file setup is complete, we'll provide you with a comprehensive initial training document, designed to introduce you to the common day-to-day tasks you'll undertake all the time. Further down the track, there are other training documents aimed at helping you to prepare for end of year financial reporting, and preparing your data for audit;
- 2. Xero has some of the best online training and support we've ever seen, built in and available to all users 24/7. In addition to a huge amount of documentation, which you can access easily by typing your question into the search bar, you can also send a direct message to one of their support staff, who will come back to you personally with suggestions for resolving your queries or issues;
- 3. If you require further support, Laurenson's staff are available (dependent on your location) to come out and provide onsite training. This is billed at our standard discounted hourly rate for Not For Profit entities, \$100/hr plus GST. We can also offer training by Skype or over the phone.

But Xero's approach to training and support is that the best software doesn't need it, because it's simple and intuitive to operate. They're constantly working to develop the software to make it even better and easier to use for you, the user.

### What happens when we change our Treasurer or Administrator?

Changeover is generally very easy to manage. All of the parish's financial history will be available to the incoming Treasurer, making it easy for them to see what has happened in the past and how it's been dealt with. They'll also have access to every financial report which has ever been published. All they'll need to do is undergo some basic training (see above) and they'll be up and running.

# I'm not an accountant, and I don't know how to prepare financial reports — will Xero make that easier?

Yes it definitely will. We've designed reports specifically for parishes to make monthly reporting more straightforward:

- Profit and Loss with reference to budgets and the previous year's activity;
- Cashbook reports showing actual cash in and out for any given period;
- If you're using the Payables and Receivables modules, there are full trial balances (both Accounts Receivable and Accounts Payable) available, to make cashflow projections much simpler
- GST reporting is simple too one click to generate the return, and one more click to send it to the IRD!

### A product this good sounds expensive! Can my parish afford it?

Xero has offered the following pricing to Presbyterian Parishes which includes a 30% discount from the usual price of the business editions and access to the cashbook packages which are usually only available through Accountants. Choose the package that will suit your Parish best.

Package	Who is this for	What you can do	Monthly cost (excl GST)
Non-GST cashbook	For those who do not require invoicing or GST reporting	You can reconcile transactions and view reports	\$14
GST Cashbook	For those who don't require invoicing	You can reconcile transactions, view reports and complete GST returns	\$22
Business Starter	For those that require limited invoicing	In addition to the GST cash book functionality you can enter 20 customer invoices and 5 supplier invoices per month, match receipts and payments to the invoices, send batches of supplier payments to your internet banking for payment. Also send statements and notifications of overdue invoices.	\$23.10
Business Standard	For those that require invoicing with unlimited transactions.	Same functionality as Business Starter but with unlimited customer invoices and supplier invoices.	\$49.70

### How much will it cost my parish to get Xero up and running?

There are several options for setting up your Xero file:

- 1. If your Presbytery has a treasurer support person, then they can assist you with the Xero set up and this will be funded by PCANZ. This is most suited for the smaller Parish cashbook set ups. Please contact PCANZFC@presbyterian.org.nz regarding this option.
- 2. Laurenson Chartered Accountants can assist with the more detailed set ups as set out in the information pack for a fee of \$625 plus GST. This includes customising the current chart to your Parish requirements, establishing bank feeds, entering the prior year comparatives and fixed asset register and providing you with training material to get you started and email and phone support in your first few months using Xero. There are also training documents available to prepare your annual accounts. Please contact <a href="mailto:xero@presbyterian.org.nz">xero@presbyterian.org.nz</a> to engage Laurenson Chartered Accountants for this work.

### OK, I'm Sold! Where do we go from here?

### The process:

1. Contact Laurenson Chartered Accountants:

Phone: 04-477-1801 Avril Hillind or Rowena Janes

Email: xero@presbyterian.org.nz

We'll provide you with a form to complete, containing contact and financial information.

2. We'll determine (in consultation with you) whether it's going to be best for us to set up your Xero file, or whether to refer you to your local presbytery.

NOTE: All the further steps below assume that we are doing the file setup for you.

- 3. Provide us with a complete record of all bank accounts and/or credit cards operated by the parish, including bank, account number and account name. We will then generate forms to complete (sign off) and send to your bank, to instigate data feeds into your Xero file. These will generally take around 10 working days to be activated from the time the form is submitted to the bank.
- 4. If you have it, provide us with:
  - Your last complete set of financial accounts (i.e. as at previous year end) as filed with the Charities Commission;
  - Your accounts for the current year to date; how we ask for this information will depend on how you are currently handling your financial data (eg. spreadsheet, cashbook, MYOB etc etc). We'll walk you through how to provide us with what we need.
  - Your fixed asset register

This data will be used to customise the standard PCANZ chart of accounts to fit your parish's needs, and to enter comparative figures for financial reporting purposes (please see alternative pricing levels for varying degrees of detail in which previous periods accounting data can be entered into your new file)

- 5. Once we have set your file up, you will need to send us data exports from your bank account/s and credit card/s from the beginning of the financial year to the date at which your bank feeds become active. We will import the transactions into Xero, then ensure that all accounts reconcile at the point at which bank feeds commence.
- 6. The file is now live, and bank feeds activated; we'll "invite" you into the Xero file so that you can begin using it. We'll also provide you with your initial training document, that goes through all of the day to day tasks you'll need to undertake on a regular basis. In addition to a lot of handy and easy-to-follow information, this guide also contains links to training videos, webinars etc, to help you to get up and running as quickly and easily as possible.
- 7. At the end of your first month of operation, we will walk you through the process of monthly reporting (for parish committee meetings etc); we will also walk you through the process of producing your first GST return.
- 8. At the end of each financial year, once you feel that your financial data is complete, PCANZ subsidises 2.5 hours of Laurensons' time to review your file, and correct or amend any obvious anomalies, prior to submission to an external accountant or auditor for the first 2 years. Any time above the subsidy or if you need assistance beyond 2 years this will be invoiced directly to the Parish. This is potentially a time and money-saver for you. Additionally, it's a chance for us to check over your file and pick up on (and communicate) anything which you may need to be processing in a slightly different way.

### **Statement of Service Performance**

### ABC Presbyterian Church New Zealand For the year ended 30 June 2020 Cash Basis

'What did we do?', 'When did we do it?'

### **Description of Entity's Outcomes**

Our mission is to provide pastoral guidance and community support to its members and others in the greater ABC area. In order to achieve this objective the church offers a weekly service to congregational members and members of the public who are welcome to attend. During this service there is a separate programme for children and young people. In addition the church runs a Friday night youth group programme for those aged 11 to 18, and an all-comers Line Dancing group on Tuesday afternoons. The church supports various local and overseas mission activities and information on this can be found on our website.
