**Presbyterian Church
of Aotearoa New Zealand**

This workshop is on the following important issues:

1. An overview of church financial reporting requirements under the new Charities reporting standards, including practical examples of financial and non-financial reports and disclosures.
2. Practical examples of churches integrating ministry and investment. This will explore churches that have successfully boosted outreach and cash flow by operating day-care centres, affordable housing and/or op shops.
3. Strategic planning: long term maintenance plans 101. Learn the best way to plan and budget for maintenance.
4. Christian Savings: options available for churches and Christian ministry for loans and deposits
5. Legacies and surplus: having an investment plan and exploring investment options with an ethical Kingdom focus to money.
